AMINO ACID REPLACEMENT
THERAPY

JALUPRO[®]

— SUPER HYDRO —

The power of
Amino acids, Peptides
& high concentration HA
Deep and long lasting
biorevitalization

PATENTED FORMULA

JALUPRO

— SUPER HYDRO —

7 Amino Acids + 3 Peptides + 3,2% LMW-HMW HA

- ◆ Protection and revitalization of the extracellular matrix
- ◆ Stimulation of ligament regeneration
- ◆ Stimulation of fat pad's structure

2,5 ml prefilled syringe

New patented formulation for optimal skin health and structure

◆ ENHANCED 7 AA FUNCTIONAL CLUSTER FOR COLLAGEN PRODUCTION

- ◆ Our signature cluster with High amount of Glycine, Proline and Lysine
- ◆ Reinforced by Alanine and Valine for collagen and Elastin reinforcement and Arginine, Leucine for hydration

◆ 3 BIOMIMETIC PEPTIDES FOR IMMEDIATE FIBROBLASTS ACTIVATION

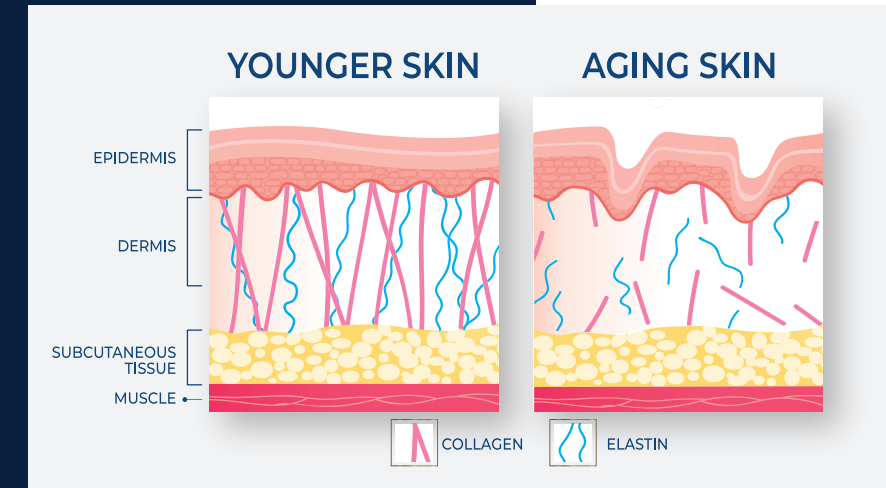

- ◆ Acetyl Decapeptide 3 & Oligopeptide 24 for cellular growth and activation
- ◆ Acetyl Tetrapeptide 5 for long lasting hydration and inhibition of glycation

◆ 80 mg OF FREE HA

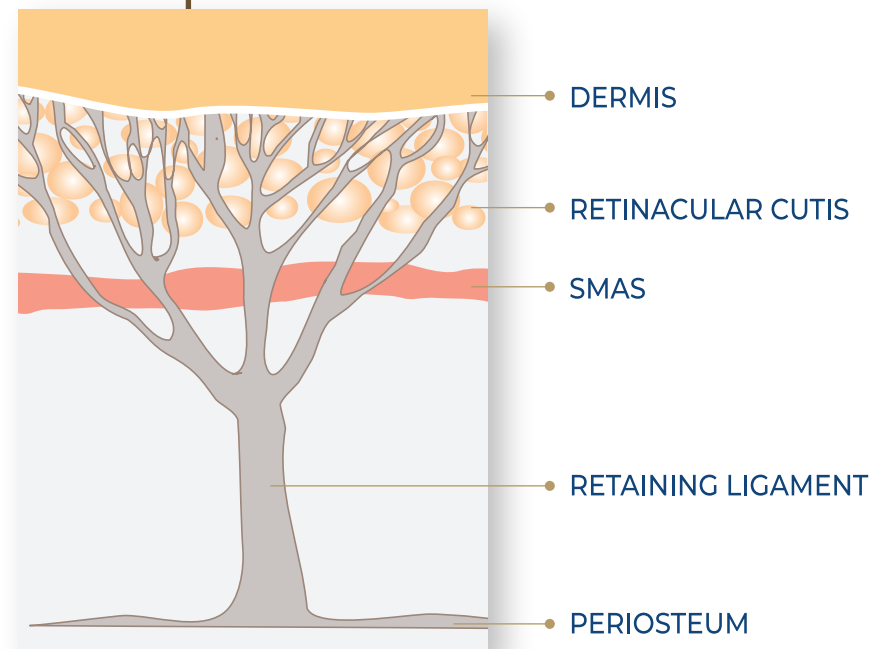

- ◆ 3,2% of Low Molecular Weight & Very High Molecular Weight (>2 Million D) HA blend
- ◆ A blend of Low Molecular Weight and High Molecular Weight for long lasting hydration, collagen fibers scaffolding and fibroblasts stimulation

Connective tissue is more than skin ExtraCellular Matrix

Our new formulation is giving an extra boost for skin Extra cellular Matrix biorevitalization thanks to the action of peptides

Retaining ligaments are made of Collagen and with ageing, they become loose due to collagen degradation

Fat pads are made of adipose cells and connective tissue (collagen). Maintaining collagen health improves the structure and the maintainance of fat pads for a younger looking face.

An evolved protocol to reach retaining ligaments

- Orbital thickening
- Zygomaticus ligament
- Plastyma auricular fascia
- Upper Masseteric cutaneous ligament
- Masseteric cutaneous ligament
- Mandibular septum
- Chin

6 points of injection with 0,2 ml
+ 1 point in the chin with 0,1 ml

LIGAMENT INJECTION

FOR VERY DAMAGED SKIN

COMBINATION WITH HIFU

SuperHydro is giving you another option and more flexibility for your patients ageing management

23g cannula to stay at dermis level

Cannula protocol for classic face rejuvenation for extreme devitalized skins in combination with HMW

COMBINATION WITH HMW

3 injections HMW, 2 weeks interval and finishing by Superhydro for long lasting benefits and additional structure

JALUPRO

a full range to address all your patients needs for a happy, healthy, glowing skin

JALUPRO CLASSIC

AA cluster HA LMW

- Body & eye area
- Neck & Decolleté
- Jalutox protocol
- Combination
- Flexibility in AA concentration

JALUPRO HMW

AA cluster HA HMW

- Face biorevitalization as stand alone
- Lips rejuvenation
- Neck and decolleté
- Hands

JALUPRO SUPERHYDRO

AA cluster enhanced

Peptides HA LMW + HMW

- Ligament biorestoration
- Severe dehydration and tired skin
